Oxidative Stress StressXpress® Assay Kits

StressMarq offers a range of ELISA kits and Activity Assay kits in the area of oxidative stress. Our kits are rigorously tested to ensure they meet our high standards for quality and reproducibility.

Product Name	Species Reactivity	Sample Type	Sensitivity	Catalog No.
Catalase Activity StressXpress® Colorimetric Assay Kit	Species Independent	Serum, Plasma, Cells, Tissues, Erythrocyte Lysates	0.052 U/mL	SKT-215
DNA Damage StressXpress® EIA kit	Species Independent	Urine Cell culture Plasma Sample matrices	30pg/mL	SKT-120
Glutathione StressXpress® Fluorescent Assay Kit	Species Independent	Whole Blood, Serum, Plasma, Erythrocytes, Urine, Cell Lysates, Tissue Samples	45 nM Free 48 nM Total	SKT-202
Glutathione Reductase Activity StressXpress® Fluorescent Assay Kit	Species Independent	Lysate RBCs Serum Plasma	0.009 mU/mL	SKT-204
Glutathione S-Transferase Activity StressXpress® Fluorescent Assay Kit	Species Independent	Lysates Serum Plasma	2.70 mU/mL	SKT-203
HO-1 StressXpress® ELISA Kit	Human	Cell lysates Tissue extracts Serum	0.21ng/mL	SKT-111
Hydrogen Peroxide StressXpress® Colorimetric Assay Kit	Species Independent	Fresh Urine Buffer TCM	1.83 µM	SKT-216
SOD Activity StressXpress® Colorimetric Assay Kit	Species Independent	Serum Urine Buffer	0.044 U/mL	SKT-214
