

CLICKSEAL™ MICROCENTRIFUGE TUBES

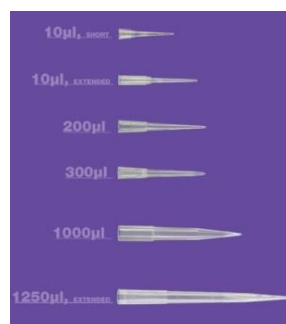

- Available in 0.65mL, 1.7mL & 2mL sizes
- Easy close & easy open
- Caps of tubes do not pop open upon boiling or freezing
- Fit all popular microcentrifuges
- Packed in premium, stand-up Dispenser Packs
- LFR™ Low Fluid Retention Technology

BIOSTOR™ SCREW-CAP VIALS & CAPS

- Available in 0.75mL, 1.6mL & 2.0mL sizes
- Conical or free-standing bases
- 3mm syringe port in cap for easy piercing
- Allows high speed centrifugation up to 17000 x g
- Made of inert LN2-grade polypropylene
- Can be used at extreme temperatures from +121°C to -195°C

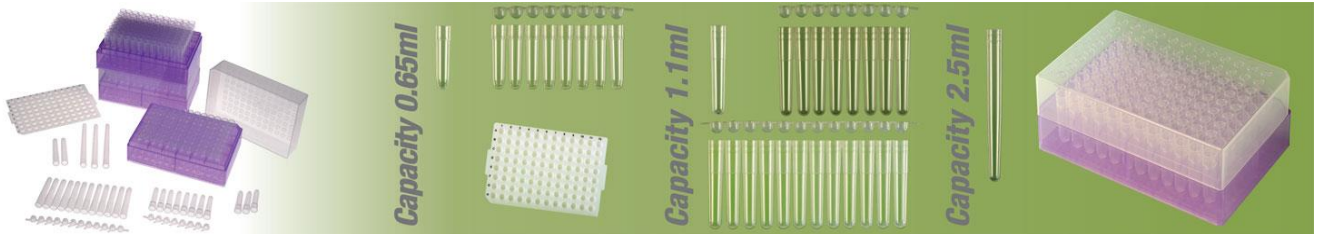

UNIVERSAL FIT PIPET TIPS

- All the tips are DNAase, RNAase & Pyrogen free
- UniFit™ Tips fit all major single and multi-channel pipettors
- LFR™ Low Fluid Retention Technology offers maximum fluid recovery
- Available in volume ranges of 0.1uL-10uL, 0.1uL-20uL, 1uL-200uL, 1uL-300uL & 200uL-1000uL

	<ul style="list-style-type: none"> ▪ Bulk bags ▪ Self-Standing ▪ Resealable Zip-Lock
	<ul style="list-style-type: none"> ▪ Standard Racks with Hinged Lids ▪ Individually sealed in puncture resistant nylon bags
	<ul style="list-style-type: none"> ▪ MiniStacks with Lift-off Lids ▪ Space saving ▪ Environment friendly ▪ 5 stacked tip trays
	<ul style="list-style-type: none"> ▪ ReloadStacks with Hinged Lids ▪ 10 reload stacks ▪ Environment friendly
	<ul style="list-style-type: none"> ▪ AeroGuaD™ Aerosol-Blocking Filter Tips ▪ Universal Fit ▪ Low Fluid Retention ▪ Autoclavable
	<ul style="list-style-type: none"> ▪ MicroStar™ Gel-Loading Tips ▪ Different shaped ends for various gel apparatus ▪ Popular Gilson type and Eppendorf Ultra-Micro type designs

MICROTUBE RACK SYSTEM

- Available in 0.65ml, 1.1ml, & 2.5ml Single and 8- or 12-TubeStrip and CapStrip formats.
- 96-well rack footprint compatible with Beckman, tecan and other robotic workstations
- One-way lid design, in conjunction with alpha-numeric grid, ensures positive sample identification
- Cover 'moulded-in condensation rings' minimize cross contamination
- Polypropylene tubes and racks are autoclavable
- Basically, this is a deep-well plate with much more convenient to use removable wells/tubes.
- Can be stacked for long-term storage of biological samples.

MICROFLEX™ PCR TUBES, STRIPS & PLATES

- Ultra-thin and consistent wall thickness on all tubes and plate wells
- For easy sample identification, all plates feature high contrast printed letters and numerals.
- Barcoding for sample management and storage/retrieval is available on semi-skirted and skirted plates, upon request.
- Certified free from DNA, DNase, RNase and pyrogens.
